

# Aliyah of Rescue

**When  
sending  
aid is not  
enough,  
it's time  
to send a  
rescue  
mission.**

Tens of thousands of Jews live in hostile areas around the world where their Jewish identity puts them in a constant state of danger.

**For Jews in places like Ukraine, France, and Yemen, this is no longer just an ongoing concern. This is an emergency.**

The opportunity to make Aliyah to Israel provides a life-saving escape and the promise of freedom to preserve and celebrate Jewish identity.

Our capacity to bring Jews home to Israel and successfully resettle them is dependent upon your support.

**Donate to Aliyah of Rescue today.  
\$5,000 brings a Jewish family to Israel.**

THE JEWISH AGENCY  
FOR ISRAEL

---

**ALIYAH OF RESCUE** is the Jewish Agency's infrastructure that stands at the ready to rescue at-risk Jews from areas of distress. In partnership with the government of Israel, the Jewish Agency coordinates flights, advises olim (recent immigrants), and provides initial resettlement services to any Jew who seeks to come to Israel – from any place, at any time, and for any reason.

Thanks to funding from the Jewish Federations of North America, the Jewish Agency can respond quickly to crises whenever and wherever they occur. **Aliyah of Rescue** has helped more than three million Jews immigrate to Israel, and right now, the need is greater than ever.

## **JEWS IN DISTRESS**

Currently, there are over 60,000 Jews who live in countries where they are at risk. Ever-increasing worldwide incidents of anti-Semitism, persistent volatility and radicalization in the Middle East, and widespread ripples of geopolitical unrest have resulted in loss of life and risk of imminent harm to thousands of Jewish men, women, and children. The opportunity to make Aliyah to Israel provides a life-saving escape and the promise of freedom to preserve and celebrate Jewish identity.

## **RESCUE**

Last year, when civil war broke out in Ukraine, the Jewish Agency's staff acted immediately – often at great personal risk – to both hasten Aliyah and to provide help and comfort to the Jews remaining there. This year in France, Aliyah fairs drew record numbers of Jews.

The Jewish Agency has responded to these increasing demands for **Aliyah of Rescue** for Jewish populations not only in Ukraine, France, and Yemen, but also in Venezuela, Cuba, Turkey, Iran, Tunisia, and Morocco. Drawing on past successful Aliyah initiatives in Ethiopia and the Middle East, the Jewish Agency is ready, willing, and able to assist with any urgent need for Aliyah and the safe homecoming of thousands of Jews.

## **ALIYAH**

For more than 80 years, the Jewish Agency has developed and refined an evolving continuum of absorption programs and services that cater to the specific needs of those making Aliyah from areas of distress. Twenty two absorption centers across Israel provide olim with a full range of services, including educational and cultural programs, Hebrew classes, job training, and housing assistance.

## **FULFILLING THE PROMISE OF THE JEWISH STATE**

Our capacity to bring Jews home to Israel and successfully resettle them is dependent upon your support.

*“The important work of...Aliyah is done thanks to the generosity of important donors. We shall continue to help any Jew who needs our assistance.”*

—Natan Sharansky, Chairman of the Jewish Agency, native of Donetsk, Ukraine, and former Soviet refusenik

**No Jew should have to live in fear. To bring Jews in distress home to Israel, *donate today.***
