THE 2008 GREATER MIDDLESEX JEWISH COMMUNITY STUDY

IRA M. SHESKIN, PH.D.
DIRECTOR OF THE JEWISH DEMOGRAPHY PROJECT OF THE SUE AND LEONARD MILLER CENTER FOR CONTEMPORARY JUDAIC STUDIES AND ASSOCIATE PROFESSOR, DEPARTMENT OF GEOGRAPHY UNIVERSITY OF MIAMI
Counting the Jewish Population is a Tradition

Take Ye the Sum of All Congregations of the Children of Israel, by Their Families, by Their Fathers’ Houses, According to the Number of Names

Numbers 1:2

My Son Mark’s Bar Mitzvah Torah Portion (1998)
Outline of Presentation

- Survey Methodology
- Jewish Population Size
- Geographic Profile
- Demographic Profile
- Religious Profile
- Types of Marriage
- Membership Profile
- Jewish Education: Adults
- Jewish Education: Children
- Jewish Agencies
- Social Service Needs
- Israel
- Anti-Semitism
- The Media
- Philanthropic Profile
Survey Methodology
Random Digit Dialing (RDD) Telephone Survey methodology provides scientific validity:

- Population estimate
- Produces the “purest” random sample

(732) 432 - ____ ____ ____ ____

RDD Telephone Survey of 469 Jewish households
DJN Telephone Survey of 607 Jewish households

Weighting factors are used to combine the two samples and remove the bias introduced by DJN sampling.

27,000 different numbers dialed more than 54,000 times to obtain the 469 Jewish households in the RDD sample.

We did not call cell phones (neither does Gallup!)

1,076 interviews is a large sample size.
Survey Methodology

- 88% cooperation rate on "screener"
- 90% cooperation rate of known Jewish households on survey
- ±3.0% margin of error at the 95% confidence level for overall results
- Interviews averaged about 20 minutes each
- Interviews conducted in June 2008, prior to the current economic downturn
**Definitions**

**Jewish Household**
*Is any household containing a Jewish Person*

**Jewish Person**
*(as in all national and local Jewish Community Studies)*
*Is any person who self identifies as Jewish*
Philosophy for Examining Data

- Please keep an open mind
- Some findings will fit your perception of reality
- Some findings will not fit your perception of reality
- Be prepared to change your perceptions
- Just because everyone has been saying something for years does not mean it is so
- While this information is important, other factors in addition to demographics need to be considered in all decisions
- This was sponsored by the Jewish Federation, but it is a community study
Resources Available to the Community

- Main Report (1,013 pages)
- Summary Report (156 pages)
- 824 Slides
- Posted at www.JewishMiddlesex.org and www.jewishdatabank.org

Today is just one opportunity to see the results and begin studying them. We will go rather quickly because our goal is not to have you leave with all the major results memorized, but rather to introduce you to some of the depth and breadth of what we have done.
Sample Comparison Bar Chart

- Compare with up to about 50 other Jewish communities with RDD studies since 1993
- Similar question wording
- Similar response categories
- Queried of same set of persons in each household

Particularly Instructive Comparisons:
- Bergen, Monmouth, New York, and Pittsburgh

Selected because of:
- population size
- geographic proximity
- campaign size
- recency of the study
56,600 persons live in 24,000 Jewish households, of whom 52,000 persons are Jewish.

In addition, about 3,500 Jews live in Somerset (City of) in Somerset County.
In addition, about 4,050 Jewish students from outside Middlesex live in dormitories at Rutgers.
Jewish Households, 2000-2008

DJN Estimate: 27,900
RDD Estimate: 24,000

14% Decrease
DISTRIBUTION OF JEWISH HOUSEHOLDS
Each Dot Represents 10 Jewish Households
(Dots are Randomly Placed within Each Zip Code)

激情结构由犹太人身份识别

（犹太人家庭）

图表展示了不同犹太人身份识别下的家庭结构比例。图表中显示了以下信息：

- **Households with Children Age 0-17 at Home**
- **Elderly Couple Households**
- **Elderly Single Households**

不同身份识别下的数据如下：

- **Orthodox**
  - Households with Children: 55%
  - Elderly Couple: 9%
  - Elderly Single: 20%

- **Conservative**
  - Households with Children: 37%
  - Elderly Couple: 13%
  - Elderly Single: 25%

- **Reform**
  - Households with Children: 22%
  - Elderly Couple: 24%
  - Elderly Single: 18%

- **Just Jewish**
  - Households with Children: 26%
  - Elderly Couple: 20%
  - Elderly Single: 18%
